VERSO / INDOOR

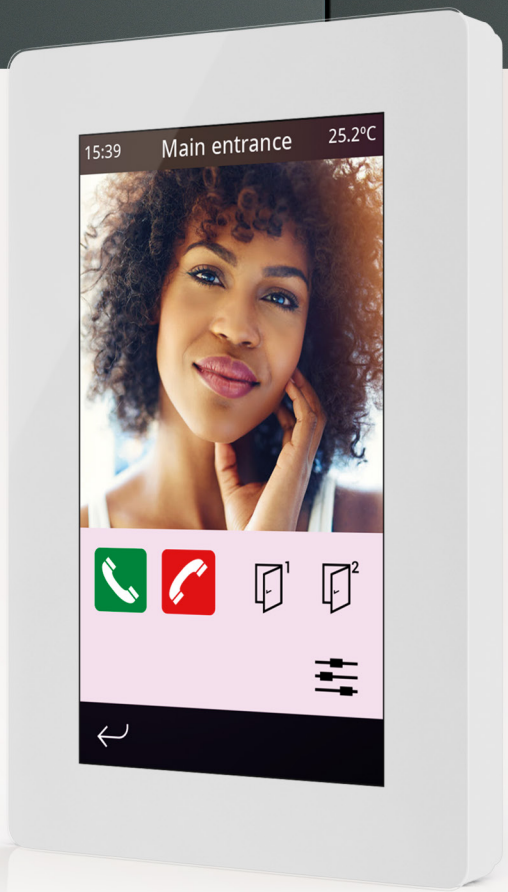
Meet the new kid on the block
Say Hello to **VERSO /** INDOOR – the new KNX touch panel with 4.3" capacitive multitouch display. Available in white or black glass, can be installed in portrait or landscape mode.

It's going to be awesome
Discover a beautiful user interface designed with painstaking attention to detail, and a wide range of advanced functions including touch gestures, time schedules, alarms, scenes, multifunction inputs, and much more. Control your home from your smartphone or tablet using the **Iddero Mobile** app (available for iOS and Android).


Welcome home!
VERSO / INDOOR also doubles as an indoor monitor for SIP-based door phone systems, and is compatible with door stations from main door phone manufacturers. Enjoy best-in-class performance with exceptional image quality and full-duplex audio with acoustic echo cancellation.
