

## VERSO / INDOOR

4.3" KNX capacitive touch panel  
with IP connectivity and door phone function

**you will fall in love**

# VERSO/INDOOR

## Meet the new kid on the block

Say Hello to **VERSO/INDOOR** – the new KNX touch panel with 4.3" capacitive multitouch display. Available in white or black glass, can be installed in portrait or landscape mode.

## It's going to be awesome

Discover a beautiful user interface designed with painstaking attention to detail, and a wide range of advanced functions including touch gestures, time schedules, alarms, scenes, multifunction inputs, and much more. Control your home from your smartphone or tablet using the **Iddero Mobile** app (available for iOS and Android).

## Welcome home!

**VERSO/INDOOR** also doubles as an indoor monitor for SIP-based door phone systems, and is compatible with door stations from main door phone manufacturers. Enjoy best-in-class performance with exceptional image quality and full-duplex audio with acoustic echo cancellation.
